

Commonwealth of Massachusetts
Department of Telecommunications and Energy
Fitchburg Gas and Electric Light Company
Docket No. D.T.E. 02-24/25
Record Request Response

Record Request No.: AG-RR-61

Please indicate the amount that FG&E is proposing to add to electric plant in service for the Sawyer substation since the last case; in other words, the incremental amount that is being proposed in this case.

Response:

There were no plant in service costs relating to the Sawyer substation included in the 1999 test year rate base that was the primary basis of the Department's order in DTE 99-118. However, the Company did include a portion of the Sawyer Passway substation in the amount of \$2,969,389 in the rate base for a 2000 test year that was also filed by the Company in DTE 99-118. As discussed in DTE-RR-2, the projects related to Sawyer Passway were started in 2000 and completed in 2001 for a total plant in service cost of \$5,240,735, which is included in total in the 2001 rate base in this proceeding.
